

## **TeleTRADE INTERNATIONAL CONSULTING**

**- We train how to earn on FOREX everybody -**

### **OPENING of the PARTNER OFFICE: The FOREX TRADING EDUCATIONAL CENTER.**

In fact, in the Foreign Exchange market (FOREX) over \$3.5 trillion worth of trades are traded daily, which makes the currency trading market the most liquid, profitable and largest financial market in the world – trading in 1 day what Wall St. trades in 1 month.

Unlike other financial markets that operate at a centralized location (i.e., the stock exchange), the worldwide Forex market does not have a central location. It is a global electronic network of banks, financial institutions and individual Forex traders, all involved in the buying and selling of national currencies. A major feature of the Forex market is that it operates 24 hours a day, 5 days a week.

Thanks to advances in technology only with some initial capital and a computer with an Internet connection everyone from beginners to more experienced traders can earn money at any time in any location all over the world sitting at home or office.

All individual traders get an opportunity to trade on margin. For example, a stake of just \$10.000 gives a trader access to a deal worth \$1.000.000 (using a leverage of 1:100) and get a bigger profit.

With FOREX you are never charged a commission. No government fees. No clearing fees. No exchange fees. No Software fees. No brokerage fees. There are also low transaction costs between the bid and ask price.

**No matter what your education, status, sex, age -  
WE WILL TEACH EVERYBODY HOW TO WORK AND EARN MONEY on FOREX  
WITH MINIMUM RISK!**

Everybody can get a new specialization confirmed our International Certificate, new work and opportunity to manage and earn with own money on FOREX.

**We provide Excellent Customer Support in our 110 offices all over the world!**

<http://teletrade-dj.com/contacts/othcountries/>

Our Professionals utilize an unprecedented approach designed to educate our clients with whatever their needs call for and get better acquainted with our free trading platform (software), charting, or navigate through resources available to our company traders.

We also provide a range of business seminars how to minimize your risk. That can be useful also who wants to become a professional trader.

From the beginning we will teach everyone about the influencing forces that shape the Forex trading world and give you the tools with which to analyze them. Combined with our offer of Forex charts, quotes and indicators, our Training Center will set you up on an exciting, hopefully successful, sometimes bumpy but always fruitful, ride on the rollercoaster better known as online currency trading.
